

Now Recording: Tech Video.

Capture full inspection videos with instant playback.

Explain the entire inspection in one go rather than taking several individual videos and photos for each inspection item recommended for the repair. Record videos in high definition from a mobile device and upload them to the customer account. Plus, provide instant playback with no downloading or buffering via cloud-based streaming.

Key Features & Benefits:

- Supports high-definition video recording
- Video lengths up to 7 minutes or more (depending on recording quality)
- Delete and re-record video as needed
- Upload video from desktop, web browser, or mobile app
- Instant video playback—no buffering or downloading—through cloud streaming
- Messaging chat UI enabled
- Send with or without an open repair order
- Available as a stand-alone product or neatly embedded within the Affinitiv Service Lane Technology suite
